Influence of Inflammation on Assessing Iron-Deficiency Anemia in Cuban Preschool Children

Published: August 22, 2021 <https://doi.org/10.37757/MR2021.V23.N3.7>

Pita-Rodríguez GM, Chávez-Chong C, Lambert-Lamazares B, Montero-Díaz M, Selgas-Lizano R, Basabe Tuero B, et al. influence of inflammation on assessing iron-deficiency anemia in Cuban preschool children. *MEDICC Rev.* 2021 Jul–Oct;23(3–4):37–45. Available at: <https://mediccreview.org/influence-inflammation-assessing-iron-deficiency-anemia-cuban-children/>

Page 39, right column, fourth paragraph, line 4, “Adjustments were applied only in the case of CRP >InCRPref, AGP >InAGPref, or both” should read “Adjustments were applied only in the case of CRP >CRPref, AGP >AGPref, or both”

Page 41, Table 4, column 6, headed by InAGP, replace all “less than” signs (<) by minus signs (–).
